Piezo Certified Inkjet Media (PCM) mainly for aqueous inks but some products cross-compatible

PCM Opaque Heat Transfer Material

This unique coated garment transfer material is an opaque white media designed to be print and cut for heat transfer to light or dark garments, either cotton or cotton blend. Graphics are simply printed right-reading, placed on the garment and heat pressed using a transfer tissue or Teflon pad over the graphic (adhesive transfer tapes do not typically work well). Finished transfers offer terrific color with good handling. This media works with all ink types, and should be printed without heat.
