Topic: ColorCAMM PRO PC-60 - Cartridge Information

ST60300

Wax Cartridges: C/M/Y/K

Wax cartridges offer a cost effective solution on the ColorCAMM PRO. They are used primarily for textile transfers and proof decals on specially coated polypropylene material, which is cut-able and weed-able. Color availability: Cyan, Magenta, Yellow, and Black.

Process Color Resin Cartridges: C/M/Y/K

Resin cartridges provide superior scratch & water resistance as well as UV stability for up to 3 years without lamination. Material compatibility is extensive with cast vinyl as the main media utilized for decal and graphic production. Three-color CMY composite images are most frequently used to save print time and running cost. Roland offers 3-color support via ColorCAMM PRO Windows driver version 2.0 available on the Web, as well as through Roland's SignMATE® PrintCUT software utilizing specific RIP settings outlined on the Web.

Resin Spot Color Cartridges: Blue & Red

For use with jobs that demand only single colors where process color generation is both time and cost consuming. Currently, an updated firmware is necessary to run these colors. It is available on our Website under software and driver support.

Resin Spot Special Cartridges: Gold, Silver & White

Specialty applications for highlights in metallic gold and silver are available with the ColorCAMM PRO. Primary applications include printing onto black vinyl for special effects or integrating gold and silver into a process color design. The latest update to the resin spot special cartridge category is the white resin cartridge where white is used as a backfill or for printing onto darker media. We strongly recommend using a 'poly' based substrate as the scratch resistance is improved over printing directly to vinyl. We cannot currently guarantee scratch resistance with white onto cast/calendered vinyl.

Cartridge Summary Information

Colors	MSRP Cartridge	Cost (each)	Yield	Cost per color	per Sq. Ft.
Wax	C/M/Y/K	\$9.99	12.33 sq. ft	\$0.81	
Process Resin	C/M/Y/K	\$15.75	7.4 sq. ft	\$2.12	
Resin Spot Color	R/B	\$19.99	8 sq. ft	\$2.50	
Resin Spot Special	G/S/W	\$24.99	5.5 sq. ft	\$4.55
