

Cutter Workbench Solutions

High-Performance Vinyl Cutters That Bring Graphics Roaring To Life.

With plug-and-play ease, technological sophistication, compact convenience, and the reliability you expect from Roland, our full line of performance vinyl cutters accelerate your ability to create incredible, professional-grade signs, displays, and graphics right from your desktop. Each comes with all the hardware and software you need to get started immediately — right out of the box.

Desktop Signmaker CAMM-1 SERVO GX-24 The ultimate companion for print-and-cut jobs.

Shown with optional stand

Look under the hood of the Roland CAMM-1 SERVO GX-24 vinyl cutter and you'll find an advanced digital servomotor that ensures accuracy when cutting anything from reflective vinyl and paint mask, to twill, heat transfer and sandblast material. Perfect for print-and-cut jobs with its optical registration system that accurately aligns pre-printed material for contour cutting, and built-in curve-smoothing function that ensures precision cutting even at top speeds of up to 20-inches per second. Simply connect your computer to the USB interface, pan through functions on the easy-to-read LCD screen, and use the included CutStudio™ drawing software to create incredible graphics.

- Large, ergonomically angled, backlit LCD control panel
- Onboard optical system for registration alignment on print-and-cut jobs
- Digital servomotor drives the cutter with maximum accuracy and speeds up to 20-inches per second
- Compatible with industry-standard vinyl widths up to 27.5-inches
- Easy access USB and serial ports
- Roland CutStudio software included

CAMM-1 SERVO GX-24 Price: \$1,995

The PRO Series GX-300, GX-400, GX-500 Astounding value. Outstanding performance.

Speed. Power. Precision. The Roland GX Pro lets you shift your graphics business into high gear. Powered by digital servomotors, these professional grade vinyl cutters achieve maximum accuracy and cutting speeds up to 33 inches per second with up to 350 grams of pressure. Vinyl vehicle graphics, window tint, signage, labels, stencils and even pinstriping come out crisp and clean.

These professional-grade cutters also include an optical registration system,

making it fast and easy to contour cut full color pre-printed graphics. The ability to mate an existing printer with the GX Pro gives you a powerful and cost-effective print/cut solution. This feature lets you blow the doors off the competition with popular jobs like heat-transfer graphics for t-shirts, full-color POP displays, and vehicle wraps.

With bundled CutStudio™ design software, you can enlarge, reduce, re-position, rotate and mirror images. The software even has the ability to cut TrueType fonts without outlining. BMP, JPG, STX, AI, and EPS file formats are all supported.

STIKA Desktop Design Cutters SV-8, SV-12, SV-15 The ultimate portable vinyl cutters.

Easy to use. Affordable. Versatile. Roland STIKA design cutters let small offices, schools and hobbyists produce a wide range of custom graphics. The STIKA makes it easy to create everything from POP displays and iron-on graphics for t-shirts to vehicle graphics.

With bundled CutStudio™ design software, you can create larger signs, then tile them into smaller sections

for cutting. The powerful software re-positions, rotates, mirrors, and enlarges images while maintaining the original quality. You can even cut TrueType fonts without outlining.

The new STIKA also makes a cost-effective print/cut solution. Just print registration marks on your graphics with your desktop printer. Load the printed graphics into the cutter. And set the position of the registration marks using the STIKA driver. Making professional-looking graphics with the STIKA is a snap.

SV-8 Price: \$499 SV-15 Price: \$999
SV-12 Price: \$699

Rev up your projects with professional-quality software tools.

Roland cutters come with easy-to-use software that makes it simple to create stunning graphics and begin using your new cutting tools immediately. Each comes complete with step-by-step tutorials and all are designed to work with popular industry standards.

Roland CutStudio makes it easy to draw and edit circles and curves, position text on lines, and import files in a wide range of formats from popular design packages. The software includes a Windows printer driver, Windows plug-ins for Adobe® Illustrator® 9/10/CS/CS2 and CorelDRAW® 10/11/12, and Mac Plug-ins for Adobe® Illustrator® 9/10/CS. The result is a seamless, user-friendly operating environment.

Produce durable, eye-catching outdoor signage.

Create professional vehicle graphics that turn heads.

Contour cut pre-printed thermal transfers, ideal for dark apparel.

Contour cut pre-printed labels.
