

Support Bulletin: RASD-SB00001 Model: Roland GX-24 Subject: Cutting from Adobe Illustrator CS (Windows) using the Windows Driver. Date: 6/23/2005 Author: RR

The following document covers how to cut from Adobe Illustrator to the Roland GX-24 using the GX-24 Windows Driver. Prior to going through the steps, please ensure that the Windows Driver for the GX-24 is installed. Please refer to your user documentation for installation instructions.

- 1. Load the material to be cut into the GX-24 (refer to users manual for loading information).
- 2. Launch Adobe Illustrator CS/CS2 and create a new document.

New Document	
Name: GX24test Artboard Setup Size: Custom V Width: 7.2 in Units: Inches V Height: 8.4 in	OK Cancel
Color Mode © GMYK Color OBGB Color	

3. Input the cut data into the Illustrator art board.
