System Requirements:

To use EZ-Engrave the following system settings are required as a minimum:

- PC 486 Mhz or faster
- 8 MB of RAM or greater
- Microsoft Windows 95 or NT
- 50 MB of hard disk space available

It is highly recommended that the system contain a math coprocessor, and be equipped with at least a 100 MB hard disk and 12 MB of RAM to operate Windows at a reasonable speed with EZ-Engrave. In addition, a video system supporting 800 by 600 screen resolution and 256 colors or greater is recommended.
