

Cutter Workbench Solutions

High-Performance Vinyl Cutters That Bring Graphics Roaring To Life.

With plug-and-play ease, technological sophistication, compact convenience, and the reliability you expect from Roland, our full line of performance vinyl cutters accelerate your ability to create incredible, professional-grade signs, displays, and graphics right from your desktop. Each comes with all the hardware and software you need to get started immediately — right out of the box.

Desktop Signmaker CAMM-1 SERVO GX-24 The ultimate companion for print-and-cut jobs.

Look under the hood of the Roland CAMM-1 SERVO GX-24 vinyl cutter and you'll find an advanced digital servomotor that ensures accuracy when cutting anything from reflective vinyl and paint mask, to twill, heat transfer and sandblast material.

Perfect for print-and-cut jobs with its optical registration system that accurately aligns pre-printed material for contour cutting, and built-in curve-smoothing function that ensures precision cutting even at top speeds of up to 20-inches per second. Simply connect your computer to the USB interface, pan through functions on the easy-to-read LCD screen,

and use the included CutStudio™ drawing software to create incredible graphics.

- Large, ergonomically angled, backlit LCD control panel
- Onboard optical system for registration alignment on print-and-cut jobs
- Digital servomotor drives the cutter with maximum accuracy and speeds up to 20-inches per second
- Compatible with industry-standard vinyl widths up to 27.5-inches
- Easy access USB and serial ports
- Roland CutStudio software included

CAMM-1 SERVO GX-24 Price: \$1,995

The PRO Series CX-300, CX-400, CX-500 Astounding value. Outstanding performance.

The Roland PRO Series reinvents your ability to produce larger graphics in a big way. In fact, you won't find more innovative, advanced features for the price. Equipped with a digital servomotor, the PRO Series produces vinyl graphics with exceptional precision, speed, and quality. Front and rear loading means you can feed media backward for a specified page distance, then cut and feed the page forward.

Plus, a state-of-the-art tracking system lets you cut long, continuous signs and banners unattended.

- Available in three models - the 30-inch CX-300, the 40-inch CX-400, and the 50-inch CX-500
- Front and rear media loading
- Optional four-roll hanger capacity for greater productivity
- Normal, heavy, and high-speed cutting modes
- Easy media separating from the front panel or automatically from the software
- Continuous, unattended cutting for long signs and banners
- Roland CutChoice® software included

**CX-300 Price: \$3,295 CX-400 Price: \$4,295
CX-500 Price: \$5,295**

- Roland Dr. STIKA™ and Roland CutChoice software included

**SX-8 Price: \$499 SX-12 Price: \$699
SX-15 Price: \$999**

Rev up your projects with professional-quality software tools.

Roland cutters come with easy-to-use software that makes it simple to create stunning graphics and begin using your new cutting tools immediately. Each comes complete with step-by-step tutorials and all are designed to work with popular industry standards.

Roland CutStudio makes it easy to draw and edit circles and curves, position text on lines, and import files in a wide range of formats from popular design packages, such as Adobe® Illustrator® and CorelDraw®. CutStudio accepts scanned images from TWAIN32 scanners, as well. Mac and PC compatible.

CutChoice is an Adobe Illustrator and CorelDraw plug-in application that gives you the ability to enlarge, reduce, reposition, rotate and mirror images. It also lets you cut Windows TrueType fonts without outlining. Mac and PC compatible.

Dr. STIKA lets you create beautifully contoured graphics using TrueType fonts, as well as outline illustrations imported as TWAIN-scanned or BMP files. You can enlarge or reduce, mirror, rotate, and make larger graphics by cutting two halves separately. Mac and PC compatible.

Roland reserves the right to make changes in specifications, materials or accessories without notice. Your actual output may vary. For optimum output quality, periodic maintenance to critical components may be required. Please contact your Roland dealer for details. No guarantee or warranty is implied other than expressly stated. Roland shall not be liable for any incidental or consequential damages, whether foreseeable or not, caused by defects in such products. All trademarks are the property of their respective owners.
