

BOOST PROFITS WITH CUSTOM PRINT/CUT GRAPHICS & RHINESTONE DESIGNS!

No longer do you have to turn away customers looking for premium custom apparel.

Our BizTools® Certified Solution makes it easy to keep those customers and increase sales with personalized t-shirts, hats, gym bags, and more.

We carefully researched all available technologies before creating this successful, proven BizTools solution with first-rate hardware, software and materials. It's ideal for producing sports lettering with twill, graphics on dark apparel, rhinestone designs and more!

Tools of the Trade

- A Roland GX-24 professional cutter for contour cutting pre-printed graphics.
- EGX-350 with bundled EngaveStudio™ Software
- EGX-20/30/400/600 with bundled Dr. Engrave™ Software
- Your existing Adobe® Illustrator® or CorelDraw design software with Dr. Engrave software
- Your existing heat press and transfer sheets
- Your choice of hot fix rhinestones. They come in a dazzling array of sizes and colors!

Roland GX-24 Cutter

The GX-24 is the perfect tool for cutting a wide range of apparel substrates – even twill! The professional-grade device has been optimized for use with your existing desktop printer. It uses an optical registration system to automatically contour cut pre-printed graphics, which can easily be heat transferred onto everything from t-shirts to gym bags.

Roland CutStudio software comes bundled with the GX-24 and lets designers quickly enlarge, reduce, re-position, rotate and mirror images. In addition to a Windows printer driver, Roland bundles plug-ins for Adobe Illustrator and CorelDraw. The GX-24 also works seamlessly with all professional design software.

EGX Engravers

Roland EGX engravers help turn ordinary apparel into fashion statements. With superior precision, they cut rhinestone patterns that add glamour to garments, hats, bags and more. Available in five different models, there is a solution to match your needs. You can even mix printed graphics with rhinestone embellishments!
